Gorilla Engine Degreaser

Gorilla Engine Degreaser features a safe but aggressive blend of grease cutting surfactants and biodegradable solvents which clean grease, carbon, varnish and baked on grime from a variety of auto surfaces.

Gorilla Engine Degreaser is our most popular degreaser. It easily removes grease and grime, yet will not stain paint or harm aluminum engine components. It is less Caustic (aggressive) than Hurricane, and contains more emulsifying surfactants to dissolve grease and allow it to be rinsed away.

Gorilla Engine Degreaser is very concentrated. Many customers dilute Gorilla Engine Degreaser 4:1 and still claim it to be the best degreaser on the market.

Directions

1. Surface should be cool to the touch.
2. Dilute product from 3:1 to 10:1 with water to achieve desired strength.
3. Spray product onto area to be cleaned.
4. Allow product to dwell for 15 - 30 seconds.
5. Agitate area with a soft brush.
6. Rinse with water.

Key Features

- Will not stain or chalk metal components
- Concentrated
- Low VOC formula
- Biodegradable & non-toxic
- Pleasant cinnamon fragrance
- Versatile, Cleans grease from any hard surface
