Nano Liquid Solve-It

Nano Liquid Solve-It is a blend of proprietary solvents used to remove tar, wax, grease, and adhesives from vehicles. Nano Liquid Solve-It's unique blend of solvents makes it strong enough to rip through tar and grease, yet it is mild enough to not harm plastic or paint.

Easy to use, fast-working and safe for paint & plastic is the reason why Nano Liquid Solve-It is our most popular body prep solvent. Nano Liquid Solve-It is very versatile. It competes with almost every dressing on the market. Just dilute with water to achieve the desired shine/price point. For Example, add 20% water to Nano Liquid Solve-It to compete against Super Dress It and Knock Out. Add 30% water to compete against Dress It and TKO.

Special Tips and Precautions

- Do not mix with other products.
- Make sure customers are equipped with gloves, rubber aprons and use proper ventilation.
- Use to remove gum and oil spots before shampooing carpets and upholstery.

Key Features

- Paint, glass, and fabric-safe.
- Great for removing window sticker glue.
- Excellent for removing excess cosmoline left in door jams and engine compartments.
- Excellent adhesive remover for limousine manufacturers and other shops where custom interiors are installed.
- Removes Formica/Linoleum floor adhesive.
- Removes excess adhesive after windshield repair.
